FIELD BIOLOGY REPORT No: 18

Field Biologist: Chris Gahagan

General: Field Biologist inspection of kitchen area carried out. No fresh activity noted anywhere within area at this time. Monitors and bait stations inspected, and all found to be clear at time of inspection. The following was noted requiring attention

Area	Observations	Recommendations	Action By	Date Completed
1. KITCHEN STORES/OFFICES	1.1 Gap noted along bottom of entry door where brush strip has begun to wear away.	A new brush strip should be installed to more effectively proof against pest entry.	Client	
2. MAIN KITCHEN FOOD PRODUCTION	No problems found at time of inspection.			
3. SALAD PREP ROOM 1	No problems found at time of inspection.			
4. SALAD PREP ROOM 2	No problems found at time of inspection.			
5. MOP CUPBOARD	No problems found at time of inspection.			
6. CORRIDOR TO EXIT AT MILK FRIDGE	No problems found at time of inspection.			
7. KITCHEN FOR MEAT AND FISH PREP	No problems found at time of inspection.			
8. POT WASH	8.1 Cladding around waste pipe has become loose and could allow pest entry or harborage.	Cladding should be secured to reduce risk of pest activity.	Client	
9. DISH WASH	No problems found at time of inspection.			
10. CHEMICAL STORE	No problems found at time of inspection.			
11. TROLLEY BAY	No problems found at time of inspection.			
12. TROLLEY RAMP	12.1 Wooden doors leading to corridor pinned open during duration of visit.	Doors should be closed when not in use to exclude pests from area.	Client	
13. CONSUMABLES STORE CORRIDOR	No problems found at time of inspection.			
14. DINING ROOM KITCHEN	No problems found at time of inspection.			

15. DINING ROOM WASH	No problems found at time of inspection.			
16. DINING ROOM	No problems found at time of inspection.			
17. STAFF CHANGE AREA	No problems found at time of inspection.			
18. LINK CORRIDOR TO SMALL KITCHENS/PREP ROOMS	No problems found at time of inspection.			
19. SMALLS KITCHEN	No problems found at time of inspection.			
20. SMALL PREP ROOM	No problems found at time of inspection.			
21. EXTERNAL AREAS	<p>21.1 As stated previously, rubble and leaves have accumulated under pot wash window.</p> <p>21.2 Although proofing work has mostly been completed in this area since last report, a hole is still present above pot wash window to the left hand side.</p>	<p>Area should be cleared to reduce likelihood of encouraging pest activity.</p> <p>Hole should be sealed to remove potential of providing pest ingress.</p>	<p>Client</p> <p>Client.</p>
