FIELD BIOLOGY REPORT No: 20
Field Biologist: Christopher Gahagan

General:

A Field Biologist inspection of the kitchen areas was carried out revealing no pest activity at the time of this inspection. The following points were noted for your attention and action.

Area	Observations	Recommendations	Action By	Date Completed
1. KITCHEN STORES/OFFICES	1.1 As reported previously, the dry stores floor covering was found to be lifting in the far right hand corner below the shelving of stored custard powder.	The floor covering should either be re-sealed or replaced as it is trapping food debris and could provide insect pest harborage.	Client	
2. MAIN KITCHEN FOOD PRODUCTION	No problems found at time of inspection.			
3. SALAD PREP ROOM 1	No problems found at time of inspection.			
4. SALAD PREP ROOM 2	No problems found at time of inspection.			
5. MOP CUPBOARD	No problems found at time of inspection.			
6. CORRIDOR TO EXIT AT MILK FRIDGE	No problems found at time of inspection.			
7. KITCHEN FOR MEAT AND FISH PREP	No problems found at time of inspection.			
8. POT WASH	No problems found at time of inspection.			
9. DISH WASH	No problems found at time of inspection.			
10. CHEMICAL STORE	No problems found at time of inspection.			
11. TROLLEY BAY	No problems found at time of inspection.			
12. TROLLEY RAMP	12.1 Wooden doors leading to corridor pinned open during duration of visit.	Doors should be closed when not in use to remove the potential for pests entry.	Client	
13. CONSUMABLES SOTRE CORRIDOR	No problems found at time of inspection.			
14. DINING ROOM KITCHEN	No problems found at time of inspection.			

15. DINING ROOM WASH	No problems found at time of inspection.			
16. DINING ROOM	No problems found at time of inspection.			
17. STAFF CHANGE AREA	No problems found at time of inspection.			
18. LINK CORRIDOR TO SMALL KITCHENS/PREP ROOMS	No problems found at time of inspection.			
19. SMALL KITCHEN	No problems found at time of inspection.			
20. SMALL PREP ROOM	No problems found at time of inspection.			
21. EXTERNAL AREAS	<p>21.1 There was found to be an accumulation of rubbish and leaves under window at the pot wash.</p> <p>21.2 As reported previously there is a hole in the wall above the pot wash window</p>	<p>This area should be cleared to reduce the likelihood of encouraging pest activity.</p> <p>Hole should be sealed to eliminate possibility of allowing pest ingress.</p>	<p>Client</p> <p>Client</p>
