FIELD BIOLOGY REPORT No: 22

Field Biologist: Christopher Gahagan

General:

A Field Biologist inspection of the kitchen areas was carried out revealing no pest activity at the time of this inspection. Technician had reported recent external rodent activity. All external bait stations inspected and found to be free of activity at this time. The following points were noted for your attention and action.

Area	Observations	Recommendations	Action By	Date Completed
1. KITCHEN STORES/OFFICES	No problems found at time of inspection.			
2. MAIN KITCHEN FOOD PRODUCTION	No problems found at time of inspection.			
3. SALAD PREP ROOM 1	No problems found at time of inspection.			
4. SALAD PREP ROOM 2	No problems found at time of inspection.			
5. MOP CUPBOARD	No problems found at time of inspection.			
6. CORRIDOR TO EXIT AT MILK FRIDGE	No problems found at time of inspection.			
7. KITCHEN FOR MEAT AND FISH PREP	No problems found at time of inspection.			
8. POT WASH	No problems found at time of inspection.			
9. DISH WASH	No problems found at time of inspection.			
10. CHEMICAL STORE	No problems found at time of inspection.			
11. TROLLEY BAY	11.1 Exit door leading out to bins found to be lying pinned open for the duration of visit	Doors should be closed to reduce risk of pest ingress.	Client	
12. TROLLEY RAMP	12.1 Wooden doors leading to corridor pinned open during duration of visit.	Doors should be closed when not in use to remove the potential for pest entry.	Client	
13. CONSUMABLES SOTRE CORRIDOR	No problems found at time of inspection.			
14. DINING ROOM KITCHEN	No problems found at time of inspection.			
15. DINING ROOM WASH	No problems found at time of inspection.			
16. DINING ROOM	No problems found at time of inspection.			

17. STAFF CHANGE AREA	No problems found at time of inspection.			
18. LINK CORRIDOR TO SMALL KITCHENS/PREP ROOMS	18.1 Wooden double door leading to the courtyard was found to be pinned open for the duration of inspection.	This door should only be opened when in use to protect against allowing pest ingress.	Client	
19. SMALL KITCHEN	No problems found at time of inspection.			
20. SMALL PREP ROOM	No problems found at time of inspection.			
21. EXTERNAL AREAS	21.1 As per previous report, there was a large amount of food and packaging waste found lying externally around bin area.	This area would benefit from a clean to reduce risk of providing a food and harborage store for pests.	Client
